Step 1: Create an Account

Signing up is free, based on VELoop's public pages. Your dashboard shows your current balance and available earning activities.

Step 2: Choose How You Want to Earn

- Watch ads through **Watch Ads & Earn**
- Complete short tasks through **Tasks**
- Play eligible **Games** or try **Spin & Win**
- Log in daily to build a **Daily Streak**
- Invite friends through **Refer & Earn**

Step 3: Track Your Balance

Everything you earn is tracked as Gems, Tokens, VEs, or SVEs — a running ledger of value, not cash in hand yet.

Step 4: Move Your Balance Through the Exchange Center

When ready, your balance moves through the Exchange Center, which converts it toward withdrawable value.

Step 5: Withdraw Through the Wallet

Your converted balance is available in your Wallet, where you choose a payout method and submit a withdrawal request.

Putting It All Together

In short: **Sign up** → **Earn** → **Track your balance** → **Exchange it** → **Withdraw it**. Every other guide in this series zooms into one of these steps in more depth.

5 FAQ

Do I have to use every feature to earn?

No — you can focus on whichever earning methods you prefer.

How often can I earn?

This depends on the specific activity and any daily limits set by VELoop — check current limits inside the app.

Do I need to exchange my balance before withdrawing?

Yes — balances move through the Exchange Center before becoming withdrawable through the Wallet.

Is there a fastest way to earn on VELoop?

This varies by person and by which offers are available; avoid advice promising a single guaranteed method.
